## what do you think about this

Posted by Nibiru - 2009/03/21 04:50

---

I found this article while browsing the net a couple of days ago and just wondered what opinions were on it. Mainly do you think its an accurate depiction of things to come or totally off the mark heres the link anyway if you cant click on it just copy and paste it into your browser window.

Hi Nibiru,

I don't think any of us can say for sure that the article is totally off the mark or on point. However, I would say that only time will tell how much, if any, of the article is on point or any other article(s) dealing with this particular subject for that matter.

Peace,  
Vegetta.
